

Tilting TV Wall Mount for 14-42 inch Screens

This ultra-slim TV wall mount sits close to the wall, complementing modern flat screen TVs. Its lateral shift feature enables sliding the TV for optimal viewing.

Product Overview

Professional Tilting TV Mount

The JT2019F6-S is a robust and versatile wall mount solution designed for flat-panel displays ranging from 14 to 42 inches. Engineered for durability and safety, this steel bracket supports loads up to 20kg while offering a tilt range of +/-5° to eliminate glare. Its ultra-slim profile and lateral shift adjustment make it an ideal choice for residential and commercial installations requiring a sleek, secure display setup.
