

TL380 Chainsaw Oil Cover

Replacement oil cover for TL380 chain saws. This cover provides a secure and leak-proof seal for the oil reservoir, ensuring proper chain lubrication.

Product Overview

Professional Grade Replacement

The TL380 oil cover is a precision-engineered replacement component designed specifically for seamless compatibility with TL380 chain saw models. This essential accessory provides a secure and leak-proof seal for the oil reservoir, which is critical for maintaining optimal chain lubrication during operation. Constructed from durable materials, this part ensures long-lasting performance and reliability in demanding working environments.

Technical Details

Part Number	131-380
Internal Reference ID	33114275016
Class	Accessories series

Compatibility

- Compatible Models
- TL380 Chain Saws

Features

Product Highlights	Leak-proof seal, Durable construction, Direct replacement, Essential maintenance part
