

Top Filling Warm/Cool Mist Ultrasonic Humidifier

This ultrasonic humidifier disperses a fine mist to moisturize the air, providing both warm and cool settings. Its top-filling design allows for simple refills.

Product Overview

Dual-Mist Ultrasonic Technology

This top-filling ultrasonic humidifier provides versatile climate control with both warm and cool mist options. Designed for convenience and safety, it features a generous 4L capacity and an intuitive touch panel. It is an ideal solution for maintaining optimal air moisture in professional or residential environments.
