

Top-Freezer Refrigerator 199-219 Liter Capacity

This top-freezer refrigerator offers a capacity between 199 and 219 liters. It features energy-saving technology, a mirror finish, and LED lighting.

Overview

Energy-Efficient Cooling Solution

This top-freezer refrigerator series offers a perfect blend of style and efficiency, featuring a modern mirror finish and robust insulation technology. Designed with intelligent temperature compensation, the unit maintains optimal cooling regardless of seasonal environmental changes. With energy-saving features like a high-efficient compressor and bright white LED lighting, it serves as a reliable and cost-effective storage solution for professional or residential use.

Performance Specifications

Diagram illustrating cooling cycle and climate zone efficiency

Technical Comparison

Specification	BCD-199CHG2A	BCD-219CHG2A
Net Volume (L)	199	219
Deep Freezing Volume (L)	76	86
Rated Input Power (W)	100	100
Energy Consumption (kWh/24h)	0.36	0.39
Star Rating	3	3

Key Features

Intelligent temperature sensing and insulation component

Energy Saving Technologies

- High efficient compressor
- R600a refrigerant
- Optimized refrigeration system with efficient heat exchange
- Double door gaskets
- Ultra-thick insulation

Intelligent Technology

Equipped with an environmental temperature transmitter for low-temperature automatic compensation, ensuring the compressor functions correctly when environmental temperatures exceed 0 degrees Celsius.

Design and Build

Exterior Material

Mirror Finish • Tempered Glass Panel • Anti-friction

Internal Lighting

White LED lighting with low heat emission and extended lifespan
