

Top-Freezer Refrigerator

This is a standard top-freezer refrigerator with a two-door design. It is designed for efficient cooling and food preservation.

Product Overview

Professional Top-Freezer Refrigerator

This top-freezer refrigerator is designed for efficient cooling and food preservation in residential environments. Featuring a classic two-door layout, the freezer is conveniently located at the top while the main refrigerator compartment sits below. Its smooth, light-colored finish provides a clean aesthetic that complements any modern kitchen setup.
