

Top-Freezer Refrigerator with Adjustable Shelves

This refrigerator features adjustable shelves and a top-mounted, temperature-controlled light. It uses environmentally friendly refrigerant and has detachable door seals for easy cleaning.

Product Overview

Modern Cooling Solution

This top-freezer refrigerator combines contemporary European design with high-efficiency performance, featuring a premium brushed silver panel finish. Designed for professional use, it incorporates advanced R600a fluorine-free refrigerant technology to ensure energy efficiency and environmental compliance. With internal features like adjustable tempered glass shelving and transparent storage drawers, it offers organized, hygienic, and flexible storage for diverse food items.
