Product Overview

Efficiency Meets Intelligent Storage

This top-freezer refrigerator is engineered with an advanced inverter compressor to ensure whisper-quiet operation and superior energy efficiency. Featuring a no-frost cooling system, it eliminates the need for manual defrosting while maintaining consistent temperatures. The interior is designed for modern professional needs, incorporating specialized zones for varying food types and intelligent humidity control to maximize freshness.

Key Features

Key Highlights

Inverter Compressor, No-Frost Technology, Cloud & Humidity Control, Adjustable Storage, LED Lighting
