

# Top-Freezer Refrigerator with LED Lighting

This top-freezer refrigerator features energy-saving technology and LED lighting. An intelligent temperature transmitter automatically compensates for low temperatures.

## Overview

### High-Efficiency Top-Freezer Series

This top-freezer refrigerator series offers exceptional cooling performance through intelligent technology and high-efficiency design. Built for reliability, these units feature automated environmental temperature compensation to handle seasonal climate changes without manual intervention. Users benefit from bright, energy-efficient LED interior lighting, advanced insulation, and quiet, eco-friendly refrigerant systems.

## Performance Specifications

### Technical Comparison

Specification	BCD-177CHU2A	BCD-197CHU2A	BCD-207CHU2A
Net Volume (L)	177	197	207
Deep Freezing Volume (L)	68	68	68
Rated Input Power (W)	100	100	100
Energy Consumption (Kw.h/24h)	0.34	0.34	0.37

### Star Rating

3

## Key Features

The integrated environmental temperature transmitter ensures automatic compensation for climate variations.

### Energy Saving Technologies

- High efficient compressor
- R600a eco-friendly refrigerant
- Optimized heat exchange system
- Double door gaskets
- Ultra-thick thermal insulation

### Intelligent Technology

Environmental temperature transmitter • Automatic low-temperature compensation • Zero-manual operation cycle

### Interior Lighting

Bright, long-life, energy-saving white LED system
