

Top-Load Washing Machine

This is a top-load washing machine designed for efficient laundry. It offers a convenient solution for cleaning various fabric types.

Product Overview

High-Efficiency Top-Load Washer

This industrial-grade top-load washing machine is engineered for high-volume cleaning demands while maintaining optimal water and energy efficiency. The robust design ensures durability under heavy usage cycles, making it an ideal choice for commercial laundry operations. Equipped with advanced control systems, it provides versatile cleaning modes to suit various fabric types and soil levels.

Key Features

Core Capabilities

- Advanced top-loading mechanism
- Automated water level sensing
- Multi-stage wash programs
- Durable heavy-duty inner tub
- Energy-saving operation mode

Performance Metrics

Operational Performance

10 kg

Rated Capacity

720 RPM

Spin Speed

55 dB

Wash Noise Level

Certifications

Compliance

ISO 9001, CE, RoHS
