

Top Load Washing Machine 5.5kg Capacity

This top load washing machine has a 5.5kg capacity. It features a rust and dent proof body and a transparent lid for monitoring the washing process.

Overview

Compact Laundry Solution

The XQB55-186 is a high-efficiency, top-loading washing machine engineered for convenience and durability. Its compact footprint makes it an ideal choice for apartments, dorms, and limited-space households without sacrificing performance. With multiple wash cycles, it provides versatile fabric care tailored to different soil levels and garment types.
