

Top-Loading Fully Automatic Washing Machine

This is a top-loading, fully automatic washing machine for efficient laundry care. It features a user-friendly control panel and multiple wash programs to accommodate various fabric types.

Product Overview

Efficiency Meets Convenience

This fully automatic top-loading washing machine is engineered for high-performance laundry care in both compact and standard settings. It integrates advanced cleaning technology to deliver thorough results while actively minimizing water and energy usage. With its user-friendly interface and customizable programs, the unit adapts easily to a wide variety of fabric types and soil levels.
