

Top-Loading Mini Washing and Drying Machine

This compact machine is designed for both washing and spin-drying laundry. It features a top-loading configuration and durable plastic housing, suitable for small to medium loads.

Product Overview

Compact Laundry Solution

This top-loading mini washing and drying machine is designed for efficient household use in limited spaces. The unit features a durable plastic housing and includes both a dedicated washing chamber and a spin-drying basket. Equipped with a convenient drainage hose, it simplifies water disposal and is ideal for managing small to medium-sized laundry loads with ease.
