

Top-Loading Washing and Drying Machine

This compact appliance integrates both washing and drying capabilities. It features a top-loading design and user-friendly controls.

Product Overview

Compact Laundry Solution

The XQB52-H540U is a professional-grade, top-loading washing and drying machine designed to handle small to medium laundry loads with efficiency. Its space-saving, compact design makes it an ideal choice for environments where floor space is at a premium without compromising on operational utility. This unit provides a streamlined solution for businesses seeking reliable and integrated fabric care technology.
