

Top-Loading Washing and Drying Machine

This top-loading machine efficiently washes and dries clothing. Its compact design features a user-friendly control panel and multiple wash/dry cycles.

Product Overview

Professional Laundry Solution

This compact, top-loading washing and drying machine is engineered for efficient laundry care in space-conscious environments. It features a robust, durable construction and an intuitive control panel designed for ease of use. With versatile wash cycles and integrated drying options, it provides reliable performance for various fabric types and daily laundry demands.

Technical Specifications

Model Number	XQB60-H650U
Loading Type	Top-Loading

Features

Key Capabilities

- Compact space-saving design
- Multiple wash cycle configurations
- Integrated drying functionality
- User-friendly control interface
- Durable heavy-duty construction
