

Top-Loading Washing Machine with 8.5kg Capacity

This top-loading washing machine has an 8.5kg capacity. It features compact dimensions of 565x565x917mm and consumes 0.123 kWh/cycle.

Product Overview

Efficiency Meets Durability

This top-loading washing machine is designed to handle demanding workloads with an 8.5kg capacity, making it an excellent solution for high-volume environments. Featuring fuzzy logic control and ten distinct washing programs, it provides automated precision for varied fabric types and cleaning needs. Built for longevity, the unit incorporates a zinc-coated cabinet and a stainless steel inner tub to withstand continuous commercial use.
