Product Overview

High-quality aftermarket strut mount for optimal suspension performance.

Premium Top Strut Mount for Chevrolet Lacetti J200

This top strut mount is precision-engineered to provide a secure and vibration-dampening connection between the suspension strut assembly and the vehicle's chassis. Constructed from high-quality steel and natural rubber, it effectively absorbs road impacts to resolve jitters, improve stability, and enhance overall ride comfort. Designed for direct replacement, this component ensures accurate hole alignment and long-lasting durability through an advanced electrophoretic coating process.

Technical Specifications

Key Features

- Corrosion-resistant electrophoretic coating
- Oil leakage prevention
- High-crack resistance rubber
- Original hole position accuracy

Material	Metal with Rubber
Fitment Type	Direct Replacement
Quality Standards	ISO, IATF 16949:2016

Commercial Terms

Trade Terms	EXW, FOB, CIF
Minimum Order Quantity	100 pcs
Delivery Lead Time	45-60 days
Warranty Period	12 months
