

Top Strut Mount for Mercedes-Benz C-Class

This top strut mount is made of high-quality steel and natural rubber. It ensures smooth product surface due to the electrophoretic coating process, making it durable and corrosion-resistant.

ADDITIONAL IMAGES

Product Overview

High-quality steel and rubber construction designed for durability and vibration reduction.

High-Performance Strut Mount

This top strut mount is precision-engineered for the Mercedes-Benz C-Class to provide a secure and stable connection between the strut assembly and the vehicle chassis. Crafted from high-quality steel and natural rubber, the component effectively isolates road noise and vibrations to enhance overall driving comfort and stability. Its durable construction, paired with an electrophoretic coating, ensures excellent corrosion resistance and a long service life under demanding road conditions.

Technical Specifications

The strut mount acts as the critical connection point between the strut assembly and the vehicle chassis.

Material	Metal with Rubber
Fitment Type	Direct Replacement
Quality Certifications	ISO, IATF 16949:2016
Warranty	12 months

Performance Features

Performance Benefits

- Resolve jitters
- Improve suspension comfort
- Improve vehicle stability
- Corrosion-resistant coating
- Original place installation

Trade Information

Commercial Terms

Metric	Details
Trade Terms	EXW, FOB, CIF
Minimum Order Quantity	100 pcs
Lead Time	45-60 days
Payment Methods	TT, LC, Paypal, ALipay
