

# Touch-Free High-Speed Hand Dryer

This high-speed hand dryer is designed for commercial restroom environments. It features touch-free operation for hygienic use and an energy-efficient design.

## Overview

### High-Performance Hand Drying Solution

This high-speed inductive hand dryer is engineered for demanding commercial restroom environments. Featuring touch-free operation, it ensures a hygienic user experience while maintaining high durability for long-term reliability. Its energy-efficient design significantly minimizes power consumption, making it an ideal choice for high-traffic facilities seeking both performance and sustainability.

## Technical Specifications

Operation	Touch-free / Inductive
Recommended Use	Commercial Restrooms, High-Traffic Areas

## Performance Metrics

### Key Performance Metrics

**100 High**  
Energy Efficiency

**100 Yes**  
Touch-free Reliability

## Compliance & Safety

### Certifications

Safety Compliant • Regulatory Approved
