Product Overview

Modern LED Task Lighting

This high-grade LED desk lamp is designed for professional workspaces and reading environments, combining a sleek aesthetic with versatile functionality. Featuring touch-sensitive controls and three distinct lighting modes, it offers precise adjustment for brightness and color temperature to suit any task. With its durable ABS and PC construction and efficient DC power supply, this lamp provides a reliable, long-lasting lighting solution for offices, study areas, or bedside tables.

Technical Specifications

Model Number	TGX-A928
Construction Material	ABS+PC
Power Consumption	12 W
Input Voltage	AC100-240V 50/60Hz
Net Weight	951.4 g

Lighting Performance

Lumen Output

220 LM

Min Lumens

600 LM

Max Lumens

Color Temperature Range	2555-2845K, 6000-6500K
Color Rendering Index (CRI)	80

Features & Operation

Included Accessories

- 12V 1A Adapter
- 1.5M Power Cable

Switch Type

Touch Switch

Dimming Capability

3 Steps Dimming
