

Touchless Stainless Steel Trash Can

This touchless trash can is made of stainless steel. It offers hands-free operation and enhances hygiene with its odor control system.

Product Overview

Professional grade stainless steel pedal trash can available in multiple colors and sizes.

Professional Grade Stainless Steel Waste Management

This premium stainless steel pedal trash can is engineered for both durability and hygiene in high-traffic environments like commercial kitchens, hotels, or luxury residential spaces. Featuring advanced hydraulic soft-close technology and a reinforced cantilever foot pedal tested for over 100,000 uses, it offers a seamless and quiet user experience. The integrated odor control system and fingerprint-proof finish ensure the unit remains clean, hygienic, and aesthetically pleasing in any professional setting.
