

Touchless Stainless Steel Trash Can

This trash can is made of stainless steel. It features a touchless opening mechanism and a split lid.

Product Overview

The intelligent sensor trash can provides a touchless experience for a hygienic environment.

Intelligent Stainless Steel Waste Management

This premium touchless waste bin combines high-end luxury aesthetics with advanced convenience. Engineered for durability, the unit features thickened 410 stainless steel construction with an anti-fingerprint and anti-stain coating. Its innovative double-wing opening mechanism and rapid induction sensor make it an ideal hygienic solution for kitchens, hotel rooms, and living spaces.
