

Towable Agricultural Boom Sprayer

This agricultural machine is engineered for the efficient and precise application of liquids like herbicides, pesticides, and fertilizers. It consists of a large tank on a trailer frame with a horizontal boom equipped with multiple nozzles for uniform field coverage.

Product Overview

High-Efficiency Agricultural Spraying

This towable agricultural boom sprayer is engineered for the precise and uniform application of herbicides, pesticides, and fertilizers. Featuring a high-capacity 3000L tank and a robust trailer frame, it is built for durability and ease of operation behind a tractor. Advanced hydraulic systems allow for seamless folding and adjustment, helping operators maximize crop yields while minimizing environmental impact through reduced spray drift.

Technical Specifications

Tank Capacity

3000 L

Capacity

Available Boom Sizes

- 18m
- 22m

Operational Features

Folding Mechanism	Hydraulic
Product Highlights	Hydraulic Control, Uniform Coverage, Towable Design, High-Pressure Pump, Drift Reduction
