

Towable Wood Chipper Shredder with Hopper

This towable wood chipper shredder efficiently processes branches and other organic materials. It is powered by a 15 HP engine and features a large hopper for easy feeding and a discharge chute.

Overview

High-Efficiency Towable Wood Chipper

This robust towable wood chipper shredder is engineered for efficient processing of organic waste and tree branches. Featuring a powerful 390cc/420cc OHV 4-stroke engine, it offers reliable performance for landscaping and forestry maintenance. The design includes a large inlet hopper for ease of use and a highly adjustable discharge chute for precise material placement.

Engine & Performance

Starting System

Recoil Starter

Engine Displacement	390cc / 420cc
Engine Type	OHV 4-Stroke
Rated Speed	3600 rpm
Blade Speed	22000 rpm

Operational Capacity

Max Branch Diameter

100 mm

Max Diameter

Chipping Capacity	120 mm
Inlet Hopper Size	550 x 450 mm

Design & Mechanics

Discharge Chute Adjustment	180 degrees
Blade Length	300 mm
V-Belt Size	1092mm
