Product Overview

Professional Towing Visibility Solution

These heavy-duty towing mirrors are engineered to provide maximum visibility for drivers hauling trailers or large caravans. Featuring a dual-mirror configuration, they significantly expand the field of view to minimize blind spots during transport. The aerodynamic design ensures stability at highway speeds, while integrated turn signals offer increased safety for signaling lane changes while towing.

Compatibility

Vehicle Compatibility

Pickup Trucks, American Truck Brands

Technical Features

Key Advantages

- Enhanced towing visibility
- Aerodynamic shape to reduce drag
- Adjustable mirror heads
- Weather-resistant construction

Mirror Type

Dual-Mirror Design

Integrated Indicators

Yes
