

Tractor Mounted Agricultural Boom Sprayer

This tractor-mounted boom sprayer is designed for the efficient and precise application of liquids across agricultural fields. It features adjustable nozzles for uniform coverage and a large-capacity tank for extended spraying sessions.

Product Overview

Professional Agricultural Spraying Solution

This tractor-mounted boom sprayer is engineered for high-efficiency application of fertilizers, pesticides, and herbicides across diverse agricultural landscapes. Constructed with a heavy-duty steel frame and a chemical-resistant polyethylene tank, it ensures long-term durability and reliable performance in the field. The system is designed for ease of use, featuring an adjustable boom and a PTO-driven pump for consistent, uniform crop coverage.

Technical Specifications

Tank Capacity Options	600L, 800L
Boom Width	12 m
Frame Material	Heavy-duty steel

Key Features

System Features

- Chemical-resistant polyethylene tank
- PTO-driven high-performance pump
- Uniform coverage spray nozzles
- Adjustable boom height
- Integrated filtration system
- Precision control valves and pressure gauges
