## Product Overview

### Professional Reciprocating Mower

The Model 9G tractor-mounted reciprocating mower is a robust solution designed for efficient grass and shrub maintenance on agricultural land. It features a reliable sickle bar cutting mechanism that excels at clearing vegetation in pastures, fields, and along fence lines. Built with a heavy-duty steel frame, this machine is engineered for durability and consistent performance in demanding landscaping and farming environments.

## Technical Specifications

Cutting System	Reciprocating sickle bar
Drive Method	Chain-driven
Power Source	PTO (Power Take-Off) Shaft
Mounting	Three-point hitch
