

Transparent Film Overwrapping Machine

This transparent film overwrapping machine is designed for providing a tamper-evident seal and enhanced product presentation. It utilizes a precise film feeding and cutting mechanism with adjustable parameters for accommodating different product sizes and film types.

Product Overview

Professional Transparent Film Overwrapping

This 3D transparent film packaging machine provides high-quality overwrapping for a wide range of box-shaped products using BOPP or PVC film. Designed for versatility, it ensures a tight, tamper-evident seal with an easy-open tear tape feature. It is an ideal solution for pharmaceutical, cosmetic, food, and stationery industries looking to enhance product presentation and hygiene.

Performance Metrics

Performance Highlights

60 bags/min

Max Production Capacity

0.35 KW

Power Consumption

Technical Specifications

Packaging Size Range (LxWxH)	40-100mm x 30-60mm x 10-30mm
Power Supply	220V / 50Hz AC
Compatible Materials	BOPP, PVC, OPP

Applications

Suitable Industries

- Pharmaceuticals
- Cosmetics
- Food & Beverage
- Stationery
- Tape & CD/DVD
