Product Overview

Versatile Transparent Adhesive Solution

These high-quality hot melt adhesive sticks are engineered for reliable, general-purpose bonding. Offering a crystal-clear finish, they are ideal for professional assembly, crafting, and repair tasks across diverse materials like wood, fabric, and plastic. With a consistent 30-40 second working time, these sticks provide the perfect balance of flexibility and strong initial tack for efficient production workflows.

Technical Specifications

Item Number	GM-1-01
Viscosity	12500 cps
Softening Point	185
Working Time	30-40 Seconds

Product Features

Appearance

White Transparent • Clear

Suitable Materials	Paper, Cardboard, Fabric, Plastic, Wood
Size Availability	Customizable
