

## Transparent PVC Drain Hose

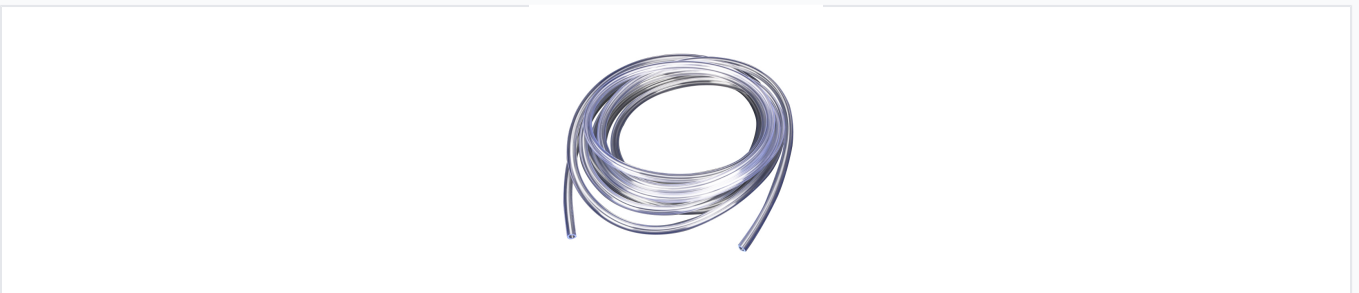

This transparent drain hose is flexible and can be easily cut. It is suitable for air conditioning systems and sink drains.

### ADDITIONAL IMAGES

### Product Overview

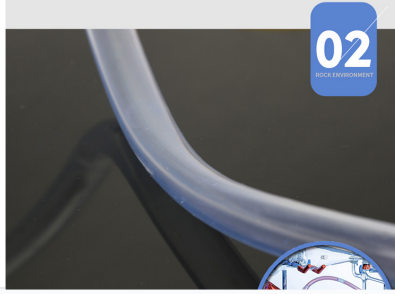

The 30m transparent PVC hose provides high flexibility and UV protection for versatile drainage needs.

### Flexible Transparent PVC Drain Hose

This newly developed air conditioner drain pipe features a lightweight, double-layer hollow design that combines a smooth interior for optimal flow with a corrugated exterior for structural integrity. Engineered from high-quality PVC, it offers exceptional resistance to high pressure, corrosion, and UV radiation, ensuring a long service life in both indoor and outdoor environments. Its transparent construction allows for easy visual monitoring of fluid flow and quick detection of potential blockages.

## Key Features

Durable construction allows for use in demanding environments while maintaining fluid flow.

### Performance Highlights

- UV protection for extended outdoor durability
- High resistance to impact and pressure
- Resistant to acids, alkali, and salts
- Anti-scaling internal surface
- Flexible design for easy installation in tight spaces
- Double-layer hollow construction

## Technical Specifications

Engineered with a smooth interior to maximize flow efficiency and prevent scaling.

### Available Dimensions

Size Reference	O.D. (mm/inch)	I.D. (mm/inch)	Length (m/ft)	Thickness (mm/inch)
Size 1	8mm / 0.3"	6mm / 0.24"	30m / 98ft	1mm / 0.04"
Size 2	10mm / 0.4"	6mm / 0.24"	30m / 98ft	1mm / 0.04"

### Standard Roll Length

<b>30 m</b> Length	<b>98 ft</b> Length
-----------------------	------------------------

### Material

High-quality PVC Plastic

## Applications

### Primary Applications

Air Conditioning Drainage, Sink Drain Systems, HVAC&R Systems, Plumbing Maintenance, Fluid Monitoring

## Installation & Maintenance

### Installation Benefits

- Easily cut to required length
- Secure connector compatibility
- Lightweight for easy transport
- Simple to dismantle and reinstall
