

Triangular Hazard Warning Sign

This is a triangular hazard warning sign used for roadside safety. It features a red reflective border, a hollow triangular center, and a foldable metal stand.

Product Overview

Roadside Safety Solution

This triangular hazard warning sign is a critical safety component designed for immediate deployment during roadside emergencies. Featuring a highly visible red reflective border, it ensures maximum safety awareness for oncoming traffic in low-light conditions. The product is engineered for portability and ease of use, featuring a robust foldable metal stand for quick setup.
