Product Overview

High-Performance Engine Rebuild Parts

These fast-moving tricycle engine replacement components are engineered to provide a comprehensive solution for maintenance and full engine rebuilds. Each part is manufactured to strict quality standards to ensure optimal mechanical performance, longevity, and reliable operation under heavy-duty conditions. This range includes essential drivetrain and combustion system components designed for seamless compatibility and easy installation.

Key Components

Available Spare Parts

- Cylinder & Cylinder Head
- Crankshaft & Connecting Rod
- Piston & Piston Rings
- Clutch Assembly
- Valves & Valve Train
- Carburetor
- Starting System (Starter Motor & Magneto)
- Electrical (CDI, Ignition Coil, Rectifier)

Technical Details

Featured Assembly Details

Part Name	Part Number
Piston and Cylinder Assembly	11108-1466-000086-28
Crankshaft and Connecting-Rod	1320B-LZ66-1000
Clutch Assembly	22000-LA66-0701-2
Engine Compatibility	KING 200CC, 70 Type
