Product Overview

Versatile Multi-Tub Cleaning Solution

This triple-tub washing machine is engineered for high-efficiency, hygienic laundry care, allowing for the separate washing of different garment types. Constructed from premium, durable ABS and PP plastics, it features an integrated storage compartment for detergents and a specialized washboard interior for superior cleaning performance. With its energy-saving design and mobile caster system, it offers both cost-effectiveness and operational convenience for modern professional laundry setups.

Technical Specifications

Model Variants

- XPB120-988S (Dandelion)
