Product Overview

Professional Pickup Truck Crane

This 1-ton electric pickup truck crane is a versatile lifting solution designed for pickup trucks, caravan vehicles, loading docks, and platforms. Featuring a compact, foldable design, it saves space when not in use while offering robust lifting capabilities for loads up to 1200kg. With 360-degree rotation and a powerful electric winch, it provides an efficient and safe method for loading and unloading goods in various professional environments.

Technical Specifications

Winch Capacity

3000 lb

Winch Capacity

Max Lifting Capacity	1200 kg
Voltage	12V DC, 24V DC
Rotation Angle	360 degrees

Key Features

Safety Compliance

CE Certified • 125% Overload Tested

Operational Highlights

- Compact, foldable design for minimal storage space
- 3-position gear adjustment for different lifting heights
- 360° swivel operating handle
- Forged heavy-duty swivel hook
- Double line lifting standard for enhanced capacity

Construction

Construction Details

Component	Feature
Main Structure	Thick seamless steel pipe
Bearing System	Ball bearings for rotation
Hook	Forged alloy steel
