

# Truck Mounted Telescopic Crane

This truck-mounted crane is designed for loading and unloading heavy materials. It features a telescopic boom for extended reach and hydraulic controls for precise operation.

## Product Overview

### Versatile Material Handling Solution

This truck-mounted telescopic crane is engineered for efficient loading and unloading of heavy materials across diverse environments. Featuring a robust telescopic boom, it provides extended reach and precise hydraulic control for demanding construction and logistics tasks. Built with safety in mind, the unit includes integrated overload protection and emergency stop mechanisms to ensure reliable performance on every job site.

## Technical Capabilities

### Key Features

- Telescopic boom for extended reach
- Hydraulic control system
- High stability design
- Robust lifting capacity

### Primary Applications

Construction, Logistics, Material Handling

## Safety Systems

### Safety Mechanisms

Overload Protection • Emergency Stop
