

Truck Rear Bumper Guard with Step

This rear bumper guard is designed to protect the rear of pickup trucks. It features an integrated step for easy access to the truck bed.

Product Overview

Rugged Rear Protection and Accessibility

This rear bumper guard is engineered to provide superior protection for the rear of your pickup truck against daily wear and minor impacts. Featuring a polished, high-durability metal finish, it combines professional aesthetics with practical utility. The integrated step design simplifies access to the truck bed, making it an essential upgrade for both work and utility vehicles.
