

Trumpet and Buzzer Speaker

This is a combination trumpet and buzzer speaker. It is an electronic audio component used in various applications.

Product Overview

Trumpet and Buzzer Speaker Assembly

This specialized audio component integrates both trumpet and buzzer functionalities into a compact mechanical assembly. Engineered for precise integration, the design features a slim profile suitable for various industrial and creative applications. The unit incorporates high-quality mechanical components including a robust comb, cylinder, and winding mechanism to ensure consistent acoustic performance.

Technical Dimensions

Key Dimensions

79 mm Overall Length	60 mm Width	23.75 mm Height
--------------------------------	-----------------------	---------------------------

Mounting Specifications

M3.5-6g threaded hole

Mechanical Components

Included Components

- Comb
- Cylinder
- Winding mechanism
