

Trumpet Horn Speaker with Buzzer

This speaker system features a trumpet-style horn and integrated buzzer. It is designed for clear audio projection and signaling applications.

Product Overview

Professional Trumpet Horn Speaker with Integrated Buzzer

This high-performance trumpet-style horn speaker is engineered for superior audio projection and reliable signaling in industrial or public settings. The unit integrates a powerful buzzer function, making it an ideal choice for warning systems, public address applications, and general audio amplification. Built with rugged components, it ensures long-term durability and consistent sound performance even in challenging environments.
