

TU Copper Cable Lug

TU cable lugs are designed for connecting copper conductors in power cables to electronic equipment. They are made of 99.99% pure copper tube T2 and coated with tin, with a working temperature range of -55oC to 150oC.

Product Overview

High-Conductivity TU Copper Cable Lugs

TU bell-mouth cable lugs are engineered for the reliable connection of copper conductors in power cable systems and electronic equipment. Manufactured from 99.99% pure T2 copper tube and finished with a tin coating, these lugs ensure superior electrical performance and corrosion resistance. Designed to handle extreme environments, they operate reliably within a temperature range of -55°C to 150°C.

Technical Specifications

Operating Temperature

-55 °C

Min Temperature

150 °C

Max Temperature

Material 99.99% pure T2 copper tube with tin coating

Conductor Cross-section 10 - 300 mm²

Compliance

Industry Certifications CE, UL, JIS, DIN, AWG

Dimensions

Standard Dimensional Data

Item No	W (mm)	L (mm)
