

Tube Cutter for Metal Tubing

This tube cutter is designed for cutting copper, brass, aluminum, and thin-wall steel tubing. It features a hardened steel cutting wheel and a smooth, precise screw-feed mechanism for clean and accurate cuts.

Product Overview

Professional Precision Cutting

This heavy-duty tube cutter is designed for professionals requiring precise, clean cuts on copper, brass, aluminum, and thin-wall stainless steel tubing. Featuring a robust screw-feed mechanism and a hardened steel cutting wheel, it ensures accurate results even in demanding plumbing and HVAC environments. The compact form factor allows for efficient operation in tight spaces, while the integrated retractable reamer facilitates immediate deburring post-cut.

Technical Specifications

Cutting Capacity

6 mm

Minimum Diameter

42 mm

Maximum Diameter

Included Features

- Hardened steel cutting wheel
- Smooth screw-feed mechanism
- Retractable deburring reamer
- Compact design for tight spaces

Compatible Materials

Copper, Aluminum, Brass, Thin-wall Stainless Steel, PP, PE, PVC
