

Tubular Incandescent Light Bulb for Appliances

This is a clear tubular incandescent light bulb. It is commonly used in household appliances such as refrigerators, ovens, or sewing machines.

Product Overview

Versatile Appliance Lighting

This clear tubular incandescent light bulb is designed specifically for use in household appliances where space is limited and reliability is key. Featuring a durable brass screw base, it provides consistent illumination for essential home equipment. Its standard design ensures easy installation, making it an ideal replacement part for refrigerators, ovens, and sewing machines.
