Tubular Thimble Wire Rope Protector

These tubular thimbles are designed to protect wire rope and cable in various applications. They are constructed from durable materials, preventing sharp bending and maintaining the strength and lifespan of the wire rope.

Product Overview

Heavy-Duty Tubular Thimble Protection

These heavy-duty tubular thimbles are expertly designed to safeguard wire ropes and cables against wear and deformation. By preventing sharp bends, they ensure the integrity of your rigging and lifting systems while significantly extending the operational lifespan of the rope. Suitable for a wide range of marine, industrial, and architectural applications, they provide reliable termination points for demanding tensioning tasks.

Technical Specifications

Performance Benefits

- Prevents sharp wire rope bending
- Protects against surface wear
- Maintains cable structural strength
- Extends equipment lifespan

Design Style

Tubular • Heavy-Duty • Without Gusset

Material Type	Durable heavy-duty steel
Suitable Applications	Marine, Industrial, Architectural, Rigging, Lifting, Tensioning

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
