

Tungsten Carbide Gritted Saw Blade

This tungsten carbide gritted saw blade is designed for cutting hard materials. It features durable construction for extended life and efficient cutting performance.

Product Overview

High-Performance Cutting Solution

This tungsten carbide gritted saw blade is engineered for cutting exceptionally hard materials with precision and efficiency. Designed for compatibility with various electric tools, its durable construction ensures an extended service life even under demanding conditions. It provides clean, reliable cuts, making it an essential accessory for professional applications requiring high wear resistance.

Technical Specifications

Tool Compatibility

- Electric Power Tools
- Cutting Accessories

Material Composition

Tungsten Carbide Gritted

Suitable Materials

Hard Materials, Abrasive Materials

Performance Features

Key Performance Benefits

Extended Tool Life • Precision Cutting • High Wear Resistance
