

Tungsten Carbide Reversible Woodworking Knives

These tungsten carbide tipped knives are designed for woodworking applications. Their reversible design ensures an extended lifespan.

Product Overview

Professional Tungsten Carbide Woodworking Knives

These reversible woodworking knives are engineered for precision and durability in various cutting applications. Available in two distinct quality grades, they offer optimized performance for both softwoods and demanding hardwoods or MDF materials. The reversible design effectively doubles the lifespan of each blade, making them a highly efficient and cost-effective choice for professional woodworking machinery.

Technical Specifications

Key Features

Reversible • Wear Resistant • Precision Ground
