

Twin Tub Washing Machine

This twin tub washing machine is designed with separate tubs for washing and spin-drying. It allows for simultaneous washing and spin-drying, providing an efficient laundry solution.

Product Overview

Efficient Dual-Tub Laundry Solution

The XPB100-98S-D1 twin tub washing machine is designed for high-capacity laundry processing in both residential and light commercial environments. Featuring separate wash and spin-dry tubs, this unit allows for simultaneous operation to increase overall efficiency. Its robust double-layer construction ensures durability, while the optional water drain pump provides flexible installation for various facility layouts.
