

Twin Tub Washing Machine

This twin tub washing machine is designed with separate wash and spin cycles. It features timer controls, water inlet and drain hoses, and a durable plastic body.

Product Overview

Compact Laundry Solution

This twin tub washing machine offers a high-efficiency solution for compact environments, featuring a dual-tub design that separates washing and spinning cycles. Built with a durable plastic body, the unit is engineered for reliability and long-term performance. Its intuitive timer controls and streamlined water management system provide professional-grade functionality in a space-saving footprint.
