

Twin Tub Washing Machine

This twin tub washing machine features separate tubs for washing and spin-drying, allowing simultaneous operation. Adjustable wash and spin timers allow customized cycles and water management.

Product Overview

Efficient Twin Tub Laundry Solution

The XPB95-295S twin tub washing machine is designed for high-efficiency laundry management, featuring separate tubs for washing and spin-drying that allow for simultaneous operation. With a generous 9.5kg wash capacity and 7kg spin capacity, it balances bulk performance with a space-saving design suitable for various professional environments. Users can customize their laundry cycles using adjustable timers and selectable water settings, ensuring gentle care for different fabric types.
