

Twin Tub Washing Machine

This twin tub washing machine has distinct compartments for washing and spin-drying. Its compact design is suitable for small spaces and it includes rotary controls and transparent lids.

Product Overview

Compact Twin Tub Washing Solution

This twin tub washing machine offers a space-saving design with independent compartments for washing and spin-drying. Engineered for efficiency, it promotes both water and energy savings while providing a user-friendly experience with intuitive rotary controls. The transparent lid design allows for easy monitoring of the laundry process, making it an ideal choice for compact living environments.

Design and Build

Key Design Features

- Dual compartment configuration
- Rotary dial control interface
- Transparent observation lids
- Integrated drainage hose system
- Reinforced stable base

Sustainability Attributes

Energy-efficient, Water-saving, Antibacterial design, Eco-friendly

Operational Metrics

Core Functions

Function	Control Method
Washing Cycle	Rotary
Spin-drying Cycle	Rotary
