

Twin Tub Washing Machine

This twin tub washing machine features separate tubs for washing and spin-drying, enabling simultaneous operation. It is equipped with control knobs to adjust wash and spin time, along with a high-efficiency motor for effective cleaning.

Product Overview

Efficiency Meets Convenience

The XPB86-286AS twin tub washing machine provides an efficient solution for everyday laundry requirements with its dual-tub design. By featuring independent compartments for washing and spin-drying, it allows for simultaneous operations to save time. Its robust construction and high-efficiency motor ensure consistent, reliable cleaning performance in a variety of living environments.
