

Twin Tub Washing Machine

This twin tub washing machine features separate wash and spin cycles. It has a durable plastic body, efficient motor, and user-friendly controls for adjusting wash time and intensity.

Product Overview

High-Efficiency Twin Tub Laundry Solution

This semi-automatic twin tub washing machine features a robust double-layer construction designed for longevity and reliable performance. With independent wash and spin compartments, it offers professional laundry handling in a compact footprint. Its efficient power management and generous capacity make it an ideal choice for businesses requiring a practical and durable laundry appliance.
