

Twin Tub Washing Machine with 12kg Capacity

This twin tub washing machine has a 12kg washing capacity and a 7kg spin capacity. Its plastic body features a double-layer design.

Product Overview

Efficiency Meets Capacity

The Twin Tub Washing Machine features a substantial 12kg washing capacity combined with a 7kg spin-drying capacity. Designed for high performance and durability, its double-layer plastic body ensures structural integrity during operation. This unit allows for simultaneous washing and spinning to streamline the laundry process for professional or high-demand environments.

Technical Specifications

Washing Capacity	12 kg
Spin Capacity	7 kg
Power Rating	450 W
Voltage	220V
